Our Company's operations consecutively suffered losses for the years ended March 31, 2009, March 31, 2010 and for the twelve months period ended March 31, 2011 due to the global recession in FY 2008-09 followed by a slow recovery phase in FY 2009-10 which narrowed down our order book substantially. The details for the same on Standalone and Consolidated basis are as under:

(₹ in Lakhs)

	P	articula	ars		Standalone		С	onsolidated

Thus, due to such uncertainties in the economy and the industry in which we operate, there can be no assurance that our Company would not incur losses in future.

 We have experienced a negative Operating Cash Flow from activities in the FY 2009-10 and for twelve months ended 31/03/2011 on Standalone basis.

In FY 2009-10 and for twelve months ended 31/03/2011, we have incurred negative cash flow from our operating activities of ₹ 3,076.78 lakhs and ₹ (248.66). The negative cash flows for were on account of increase in inventory and working capital requirements. For further details, please see section titled — **Financial Information** beginning on page no. 61 of this Letter of Offer.

6. We have implemented a Corporate Debt Restructuring Scheme (CDR) with State Bank of India (SBI), Axis Bank Limited, Union Bank of India, Exim Bank of India and IDBI Bank Limited for restructuring our Company's outstanding loan obligations. Inability on our part to comply with the terms mentioned under the scheme will lead to revocation of the concessions granted by the banks and thus, would affect the business operations and financial condition of our Company.

In order to meet the growing demands of our customers, in FY 2008-09, we had set up state-of-the-art facility at Appur, near Chennai with an investment of ₹ 11,390.00 lakhs which was partly financed by way of loan funds of ₹ 5,500.00 lakhs. The said loans were arranged by State Bank of India (SBI), Axis Bank Limited, Union Bank of India, Exim Bank of India and IDBI Bank Limited. In the same year, our country at large witnessed global recession which affected our industry as also the order book which as a result affected the business and the financial operations of our Company. We were unable to service the repayment of the aforesaid loans and subsequently we approached CDR Cell for restructuring the said loans. The CDR Cell vide its letter no. CDR (ABP) no.

277/2009-10 dated June 16, 2009 approved our restructuring proposal and we were given relaxation in repayments of these loans till March 31, 2011 with further concession in interest rates. This was subject to full co-operation and active support in ensuring compliance of critical conditions by us as mentioned in the letter. Therefore, any inability on our part to comply with the terms mentioned under the scheme will lead to revocation of the concessions granted by the banks and thus would affect the business operations and financial condition of our Company.

7. The CDR empowered group has envisaged the sale of land at Hosur as a part of restructuring proposal under CDR mechanism. This may impact our production which might affect our business and financial operations.

The CDR empowered group under the restructuring scheme has envisaged sale of entire 11.195 acres of land located at Hosur which is owned by the company as part of our business restructuring plan. The proceeds of this land will be used to pay off statutory liabilities, labour dues, unsecured loans/ICDs, plant shifting expenses and the balance would be used for the working capital requirements (as per the management's estimates). This may have an impact our production which may further affect the business operations of our Company.

## Management Proposal

The sale of this land will not cause any disruption to the manufacturing activities presently being carried on by the company. The entire facility of Hosur plant is proposed to be shifted to another location at Nallagana Kothapalli Village, Koneriapalli Panchayat, Hosur Taluk, Krishnagiri District which is owned by our Company. During the course of shifting, we will be making an alternative arrangement, whereby it will be using the manufacturing facilities of Appur Plant to service the clients of Hosur Plant so that the sales are not affected.

8. Our Promoters have pledged their shares with the State Bank of India under the CDR Scheme.

The Promoters of our Company have pledged 26,76,824 equity shares constituting 31.02% of the present paid up equity share capital under the CDR Scheme with State Bank of India. Further, as per the terms of the CDR Scheme, 100% of the shareholding in our company held by Mr. V. Srikanth (Promoter and Chairman) and Mr. K.V. Ramachandran (Promoter and Vice Chairman & Managing Director) including fresh equity to be brought by the promoter shall be pledged with the lenders on pari passu basis. The pledge of shares would lead to restriction in leveraging our debt. For further details, please refer the section titled "Capital Structure" on page no. 20 of this Letter of Offer.

9. We do not own the premises at which our registered office is located.

We do not currently own the premises where our registered office is situated. The premises has been taken on lease basis from its owners i.e. Mr. Girish Seshagiri and Mrs. Baa Seshagiri for 3 (three) years for a monthly rent of ₹ 65,000/-. The present lease is valid till September 2011. The lease may be renewed subject to mutual consent of the lessors. In the event that the lessor requires us to vacate the premises, we will have to seek a new premise at short notice and for a price that may be higher than what we are currently paying, which may thus affect the operating costs of our Company.

10. Our Company has been reported as defaulting borrower of ₹ 100.00 Lakhs and above under non-suit filed accounts (doubtful & loss accounts) by the Royal Bank of Scotland N.V.. Any such foregoing events can have adverse impact on the future borrowings to be made from the banks.

The Royal Bank of Scotland N.V. (RBS) has informed our company that though we have not been reported as willful defaulter, but our company has been reported as a defaulting borrower of ₹ 100.00 Lakhs and above under non- suit filed accounts (doubtful & loss accounts). Any such foregoing events can have adverse impact on the future borrowings to be made from the banks which can have an impact on our business operations.

#### 11. Our Company does not have long term contracts with its customers.

Our Company has not executed any long term contracts with its customers. All its sales are based on purchase orders that are placed by the customers depending on their requirements. Consequently, our revenue is also dependent on the requirements of the customers. In the absence of long term contracts, there can be no assurance that a particular customer would continue to purchase products from our Company in the future. A reduction in the purchase orders placed by customers may adversely affect the business and revenues. Further, any loss of major customers arising out of competition or from cheaper sources can lead to reduced margins and results and operations of our Company may be affected.

## 12. Our Company depends on few suppliers for substantial portion of raw material purchases.

Our Company does not have any agreement with suppliers for sourcing of raw materials and thus may affect its regular supplies in case of any conflict or delay in the supply. Hence, it could adversely affect the manufacturing operations and consequently affect the financial results of our Company. Any problems faced by suppliers resulting in delays or non-adherence to quality requirements could adversely impact ability to meet its customer's requirements in time and operations would be affected to the extent our Company is unable to line up supplies from alternate suppliers.

## 13. We are vulnerable to volatility in prices of our raw materials which could adversely affect our business and financial results.

The main raw materials used in the manufacture of our forged products are various grades of steel. The prices of steel we purchase from our suppliers may fluctuate due to changes in demand and supply conditions for steel. In the event of any significant increase in the prices of steel and if we are unable to pass on fully such increase in the prices of steel to our customers, our profitability will be adversely affected. However our Company fixes the selling prices of our finished products keeping in view increase in the cost of steel from time to time.

# 14. Our Company faces severe competition from the new entrants and existing players which may result in decreased demand or lower prices for our products. Our failure to effectively compete with our competitors could reduce our profitability.

Our Company may face significant competition from existing players and potential entrants in the Indian Forging Industry. Some of our competitors may be large international corporations and have, or are subsidiaries of large international corporations that have, significantly greater resources than those available to us. Some of the Indian competitors are larger than us and have greater financial resources.

If we are unable to compete effectively, including in terms of pricing or providing quality products, our market share may decline, which could have a material adverse effect on our financial condition and results of operations.

## 15. Changes in technology and trends in the industry may affect our ability to compete.

Technology plays a vital role in the forging industry. Failure or inability to incorporate any change in technology might place competitors at an advantage in terms of costs, efficiency and timely delivery of the final products. Therefore, we are committed to implant the best technology for manufacturing of our products. We also keep ourselves abreast with the latest technology and update our operations accordingly on a continuous basis so as to remain cost effective and competitive in the business.

## 16. Our Company's future success depends on its ability to reduce the cost of production and thereby increase its operational efficiency. However, inability to achieve operational efficiencies will have an adverse impact on the operational financial activities.

Reducing the cost of production is essential to our business strategy in a highly demanding and competitive market environment. Our cost reduction strategy focuses on, among other things,

increasing the levels of localization for our new product introductions, improving raw material and component sourcing, vendor participation in cost reduction, continuing focus on sharing basic vehicle platform among multiple models in order to spread development costs, and reducing selling, general and administrative costs over maximum models and variants. Our measures to increase our operational efficiency may not yield results in the future, which may adversely affect our results of operations.

## 17. Our Company is dependent on the expertise of its senior management team and key technical and managerial personnel.

Our Company is dependent on its senior management team for setting the strategic direction and managing its business, both of which are crucial to its success. Given the substantial experience of the senior management team, in the event any or all of them leave or are unable to continue to work with us, it may be difficult to find suitable replacements in a timely manner or at all. Our Company's ability to retain experienced personnel as well as senior management will also in part depend on us in maintaining appropriate staff remuneration and associated benefits. Our Company cannot be sure that the remuneration and benefits that are in place will be sufficient to retain the services of the senior management and skilled people. The loss of any of the members of the senior management or other key personnel may adversely affect the business, financial condition and results of operations of our Company.

# 18. The business of our Company is dependent on its manufacturing facilities. The loss of or shutdown of operations at its manufacturing facilities may have a material adverse affect on business, financial condition and results of operations.

Our Company's manufacturing facilities are situated at Appur and Hosur. These are subject to operating risks, such as the breakdown or failure of equipment, power supply or processes, performance below expected levels of output, raw material shortage or unsuitability, obsolescence, labor disputes, strikes, lock-outs, non-availability of services of the external contractors, the ability to respond to technological advances and emerging industry standards and practices in the industries we operate and propose to operate on a cost-effective and timely basis, earthquakes and other natural disasters, industrial accidents and the need to comply with the directives of relevant government authorities, and any other factors which may or may not be within control. The occurrence of any of these risks could significantly affect our business, its operating results and financial condition of our Company. Although we take precautions to minimize the risk of any significant operational problems at facilities, the financial condition, results of operations and the trading price of Equity Shares may be adversely affected by any disruption of operations at facilities, including but not limited to any of the factors mentioned above.

## 19. Fluctuation in foreign exchange may have adverse impact on the profitability of our Company.

Our exports are billed mainly in Euro and Great Britain Pound currency. As such, we are exposed to exchange rate fluctuation risk. However, we mitigate this risk to some extent by entering into forward contracts to hedge the exchange rate exposure. Furthermore, due to weakening of all the major world currencies against the Indian Rupee in the recent past, we were insisting our customers for billing in Euro or Great Britain Pound currency instead of US Dollar, so as to reduce the loss on exchange fluctuation. Nevertheless, any adverse movement in foreign exchange rates may have adverse impact on the profitability of our Company and consequently results of operations and financial condition.

# 20. We are yet to receive certain approvals relating to our existing operations that we have applied for. Failure or delay in obtaining these approvals may have a material adverse effect on our business, financial condition and profitability.

In respect of our existing operations, we have submitted applications for the renewal of certain approvals and the same are pending before the regulatory and municipal authorities. A summary of such approvals is detailed hereunder:

Description	Facility located	Issuing Authority	Status

The licenses and approvals required to be renewed or obtained by us for the purpose of carrying on our existing and proposed businesses are granted by governmental or statutory authorities. The grant of these licenses and approvals are affected under the due processes and procedures as prescribed by the applicable governmental/ municipal rules and regulations. Further, the grant of the licenses are contingent upon the satisfaction of certain norms and conditions as may be prescribed by the relevant authority as well as an inspection of the facilities of our Company. Consequently, there may be a substantial amount of delay in the receipt of the required approvals.

For further details, please refer to the section titled "Government and Other Approvals" on page no. 114 of this Letter of Offer. Failure or delay in obtaining the above approvals may have a material adverse effect on our business, financial condition and profitability.

## 21. Deployment of issue proceeds is entirely at the discretion of the Issuer and is not subject to any monitoring by any independent agency.

The net proceeds from this Issue are expected to be used as set forth under "Objects of the Issue" on page no. 25 of this Letter of Offer. The use of the net proceeds is at our Company's sole discretion and is not subject to any monitoring by any independent agency. Accordingly, investors in this Issue have to rely upon the judgment of the management, who will have considerable discretion, with respect to the use of proceeds.

## 22. Our Company has entered into certain related party transactions.

Our Company has entered into related party transactions with the promoters, directors and some of its group entities. For details please refer to the section *"Financial Information"* beginning on page no. 61 of this Letter of Offer.

## 23. The Equity Shareholders will not be able to sell immediately on an Indian stock exchange any of the Equity Shares purchased in the Issue.

The Equity Shares will be listed on the BSE, ASE and MSE. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading may commence. Investors' book entry or "demat" accounts with depository participants in India are expected to be credited within two working days of the date of allotment. Thereafter, upon receipt of final approval from the BSE, ASE and MSE, trading in the Equity Shares is expected to commence within seven working days of the date on which the basis of allotment is approved by the Designated Stock Exchange. Our Company cannot assure that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time periods specified above.

## **B. EXTERNAL RISK FACTORS**

## 24. Risk relating to a downturn in automobile and auto ancillary sector.

In late FY 2007-08 and FY 2008-09, the Indian economy witnessed a downturn due to the global economic breakdown world over. All the major industries, including the automobile and auto ancillary sector were worst hit by this breakdown. Thus the demand for our Company's products remained subdued due to the lackluster demand from the automobile sector, which is one of the major drivers for the demand for our Company's products. In future if the automobile and auto ancillary industry is affected adversely, it could adversely impact our business and profitability.

# 25. There is no assurance that the Equity Shares will be listed on the Stock Exchanges in a timely manner or at all and any trading closures at the Stock Exchanges may adversely affect the trading price of the Equity Shares.

In accordance with Indian law and practice, permission for listing of the Equity Shares will not be granted until after the Equity Shares have been issued and allotted. Such permission will require that all other relevant documents authorising the issue of the equity Shares to be submitted. There could be a failure or a delay in listing the Equity shares on the BSE, ASE and MSE. Any failure or delay in obtaining the approval would restrict the investor's ability to dispose of their Equity Shares.

## 26. Equity Shareholders bear the risk of fluctuation in the price of the Equity Shares of our Company.

It is impossible to predict whether the price of the Equity Shares of our Company will rise or fall. Trading prices of the Equity Shares will be influenced by, among other things, the financial position of and the results of operations of our Company, and political, economic, financial and other factors. There can be no assurance that the prices at which the Shares are currently traded will correspond to the prices at which the Equity Shares will be traded in the market subsequent to the Issue.

## 27. Future sale of Equity Shares by some of the current Shareholders could affect the price of the Equity Shares in the secondary market.

The market price of the Equity Shares of our Company could decline if some of the existing shareholders sell a substantial number of Equity Shares post listing or on the perception that such sales or distributions could occur. This, in turn, could make it difficult for the Shareholders to sell Equity Shares in the future at a time and at a price that you deem appropriate.

## 28. The price of the Equity Shares may be highly volatile.

The price of the Equity Shares of our Company on the stock exchanges may fluctuate after this Issue as a result of several factors including:

- Volatility in Indian and global securities market
- The results of operations and performance
- Adverse media reports, if any, on our Company
- Changes in the estimates of the performance or recommendations by financial analysts
- · Significant development in India's economic liberalization and de-regulation policies
- Significant development in India's fiscal and environmental regulations
- There can also be no assurance that the price at which the Equity Shares are currently traded will correspond to the prices at which the Equity Shares will trade in the market subsequent to this Issue.

29. Our Company is subject to risks arising from interest rate fluctuations, which could adversely affect its business, financial condition and results of operations.

Changes in interest rates could significantly affect the financial condition and results of Operations of our Company. If the interest rates for its existing or future borrowings increase significantly, its cost of funds will increase. This may adversely impact our Company's results of operations, planned capital expenditures and cash flows.

#### SECTION IV - HISTORY AND CORPORATE STRUCTURE

Our Company (originally known as 'Ellore Electric Supply Corporation Limited') was incorporated on July 18, 1934 under the Indian companies Act, 1913 to carry on the business of generation and distribution of power in Ellore town of Andhra Pradesh. In the year 1960 the distribution of power was nationalized by the government after which we had set up the Forging unit at Chromepet with 900 MT of installed capacity in 1963 that catered to the needs of Automobile Industries in South. The name of our Company was then changed to 'Ellore Engineering Company Limited'. Our Company during the period 1963-1973 progressively increased its installed capacity to 2400 MT by addition of hammers.

In the year 1974, with the rising demand of forgings in South India, we had set up a plant in Hosur, Karnataka, with an installed capacity of 2400 MT. The name of our Company was then changed to 'El Forge Limited' in the year 1979. We have constantly worked upon increasing its productivity and efficiency. Since, 1999 we have embarked on a programme of Total Productive Maintenance (TPM) with an objective to achieve 'Zero Defects' thus attaining higher productivity. In 1995 we merged another Forging Company M/s. Chendur Forge Exports Ltd with our Company.

In 2005, our Company acquired a Forging Company in UK. The Company Shakespeare Forgings Limited (100% subsidiary of El Forge Limited) manufactures and distributes Forgings to Auto, Mining, Agri, Offshore and General engineering Sectors. The acquisition has opened the gateway for us for supplies with UK and Europe. High volume price sensitive components are manufactured in India and Shakespeare Forgings Limited continues to manufacture average of low volume higher margin products in UK.

Our Company had embarked on an expansion and modernization programme with the purpose to meet the growing customer demand and to be a global player in Forging. With this objective we purchased 25 acres of land at Appur near Chennai from the sale proceeds of the unit at Chrompet. The factory is located near the area where Ford Motors, Hyundai Motors and other automobile ancillary units are situated. The facility was started in 2006 and was completed in 2008. The total installed capacity of the plant is 10,000 MT per annum.

The process flow in respect of refunds by way of NEFT is at an evolving stage and hence use of NEFT is subject to operational feasibility, cost and process efficiency. In the event that NEFT is not operationally feasible, the payment of refunds would be made through any one of the other modes as discussed herein.

- 2. **ECS/NECS:** Payment of refund would be done through ECS/NECS for applicants having an account at any of the centres where such facility is made available. This mode of payment of refunds would be subject to availability of complete bank account details including the nine-digit MICR code as appearing on a cheque leaf from the Depository. The payment of refund through ECS/NECS is mandatory for applicants having a bank account at any of the centres, except where the applicant is otherwise disclosed as eligible to receive refunds through direct credit or RTGS.
- 3. **Direct Credit:** Applicants having bank accounts with the Banker(s) to the Issue / Refund Banker(s), as appointed by our Company, shall be eligible to receive refunds through direct credit. In the event the same is not provided, refund shall be made through ECS. Charges, if any, levied by the Banker(s) to the Issue / Refund Banker(s) for the same would be borne by such applicant opting for RTGS as a mode of refund. Charges, if any, levied by the applicant's bank receiving the credit would be borne by the applicant.
